

WHY INVEST IN GR.V

LOCATED IN THE HOTTEST EMERGING GOLD BELT IN NORTH AMERICA NEWFOUNDLAND CANADA

Tier-1 Mining Jurisdiction

Golden Promise flagship property located in central Newfoundland, Canada, a top 10 mining jurisdiction worldwide with a pro-development government

Highly Experienced Management Team

Led by a team with a proven track record in resource discovery and development in the region

Gold & Critical Mineral Prices

Gold and critical mineral prices continue to be at a record high, driven by strong global demand. Driven by global electrification, AI, defense, supply deficits

Project Generation Model

Holds a diversified asset portfolio of over 64,000 hectares of 16 critical mineral projects in Atlantic Canada, reducing shareholder dilution through partner funded exploration

COMPANY OVERVIEW

Chris Anderson
PRESIDENT & CEO

David Martin
VP EXPLORATION

Great Atlantic Resources Corp (TSX.v: GR | FSE: PH02) is a Canadian exploration company focused on the development of mineral assets in the resource-rich and sovereign risk-free realm of Atlantic Canada. GR is building long-term shareholder value through the advancement of its flagship Golden Promise Gold Project in Newfoundland, supported by an existing NI 43-101 gold resource, high-grade drill intercepts, and a portfolio of critical mineral assets in a tier-one mining jurisdiction.

GOLDEN PROMISE PROJECT

FLAGSHIP
PROPERTY

NEWFOUNDLAND | GOLD | 40,834 ACRES

- Multiple gold bearing quartz veins and vein systems, including zones of gold bearing quartz float
- 119,900 oz inferred resource at 10.4 g/t gold (Dec 2018 43-101)
- Approx. 5,000 m HQ drilling (Jaclyn and Otter Brook Zones)
- Historic 2010 bulk sample 2,200 tonnes (5.59 g/t gold calculated head grade report)
- Reported historic assays of quartz boulders up to 353.4 g/t gold
- 2021 drill results (Jaclyn Zone): 238 g/t gold over 0.40m; 75.5 g/t gold over 0.35m; and 30.6 g/t gold over 0.41m (core length)
- 2021 maiden drill program (Otter Brook Zone): 4.95 g/t gold over 0.50m (core length)
- 2024 drill program (Jaclyn Zone): 120.9 g/t gold over 0.44m; 60.2 g/t gold over 0.44m; 42.7 g/t gold over 0.72m (core lengths)
- Objective to build a multi-million ounce gold resource

Milestones & Upcoming Catalysts

Golden Promise

- Conduct further confirmatory drilling to improve resource confidence at Jaclyn Main Zone
- Conduct drilling at Jaclyn North Zone to define a gold resource and test along projected trend to east – northeast
- Bulk sampling updates
- Assay results updates

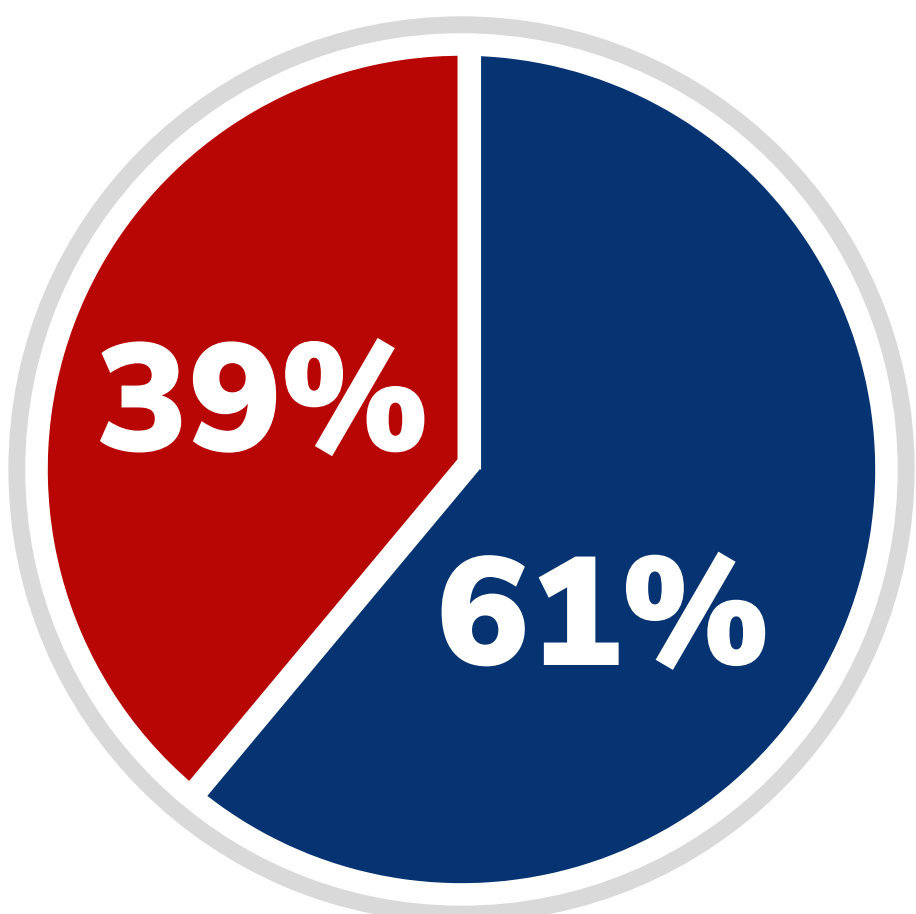

Keymet Silver

- Geochemical sampling, geophysical surveys and regional prospecting
- Submit permits for 2500m of diamond drilling and trenching program
- Test for additional polymetallic veins

Regional Targets

- Ground follow up and target reviews
- Generate new anomalies in select regions
- Further exposure to current and prospective project opportunities in portfolio
